Candidates Cooperate

A word of thanks to candidates in the coming Virginia elections came this week from the State Highway Department.

A Department spokesman said, "We've had less trouble with political posters during the current campaign than in any previous election."

It is against the State's Outdoor Advertising Act to place billboards or posters (political or otherwise) visible from a rural public highway without first obtaining a permit from the State Highway Department.

"Throughout the State," the spokesman said, "candidates of all political levels have been most cooperative in observing the law."

"Equa-poise" power!

What is it? Well, for one thing, it includes new triangular engine mounts which blot out noise and vibration. It includes new smoothness, too . . . in both the V-8, the type of engine used in America's most expensive cars, and in the new SIX, the most modern "six" on the road.

White sidewall tires available at extra cost.

It's part of the new Ford "Feel"

You notice the new "feel" of Ford's King-Size Brakes, too. "Magic Action" helps them work 35% easier. And you notice the "feel" of safety of Ford's heavy gauge "Lifeguard" Body. In combination with Ford's new 5 cross-member box section frame it's 59% more rigid!

This new "feel" goes all through the new Ford. You notice it first when you feel that "Finger-Tip" Control. Then you get the "feel" of Ford's "Mid Ship" Ride! Plenty of room for six big people on sofa-wide seats in the smooth riding center section of the car.
